Dear Friend:

I am enclosing this ambitious schedule for the games to be played by The Eagles at home during the month of August. These are the most games we have tried to play at one time here, and I do hope it is not too much. I have always said the team should stay at home more, so I am about to see how it works out.

Four of these games are with teams from the American League, but the fans seem to want to see them. They draw very well.

Please let me have these schedules by the 1st of August if possible. We want to get all we can out of them. I will take them sooner if they are ready.

Thank you in advance for your cooperation.

Very Truly Yours
